## *Spaces to Experience*

Prior to the show-stopping reveal of the Julia Morgan Ballroom, guests enjoy an event flow through a number of equally resplendent spaces, beginning with the breathtaking building lobby, washed in natural light from the vaulted atrium above. Eye-popping visuals continue from the state-of-the-art elevators to the 15th floor's Friendship Foyer, through the gleaming Daniel Burnham Bar and Lounge and accompanying rooms.

# The Building

In a city known for its landmarks, the Merchants Exchange building occupies a special place of historic prominence. The experience begins before you even enter the building, with the California Street cable cars whirring up Nob Hill just behind you. Pass through the gleaming street-level doors and into an immaculately maintained era of lavish detail and impeccable taste designed by Willis Polk, Daniel Burnham and Julia Morgan, three titans of American architecture. This is San Francisco: authentic, rich and romantic.
